Dear Drainage Conference Attendee,

The Red River Watershed Management Board (RRWMB) thanks you for attending the 2019 Red River Basin Drainage Conference. The RRWMB Managers believe that efforts such as this Conference provide a venue to share information about drainage rules, regulations, and case law updates. This conference also provides an opportunity to learn about practical implementation of drainage recommendations and guidance in the Red River Basin developed by several organizations and agencies in recent years.

Collaborative drainage efforts at the local level are critical to providing adequate and equitable drainage to our hardworking farmers and landowners in the RRB. Please complete the evaluation for this event as it will provide information to the planning committee for future events. Completed evaluation forms are highly desired and the RRWMB appreciates your participation today.

Sincerely,

A handwritten signature in black ink that reads "John Finney".
